COVID RELATED ACTIVITIES BY LOCAL BRANCHES

IMA SIBSAGAR initiative

Lead by President Dr Ripun Borpujari

Government, many NGO are helping COVID patients from Diagnosis, transport, treatment to vaccination! It is a positive sign for our society!

But what about our fraternity? Are we listening their basic problems?

One basic problem was raised by Dr Minmoy Baruah few days back about rehydration solution to combat excessive sweating with PPE Kits in this hot weather!

Today IMA Sibsagar donated 1000 packets of ORS to Joint Director Health, Sibsagar!

It is TRUE that nobody will look after us, WE have to look after ourselves and our fraternity!

Thanks
Regards to all

WHY A HEALTHY PERSON DONATE BLOOD....?

- Blood is the **most precious gift** that anyone can give to another person
- Since **blood cannot be manufactured outside the body** and has a **limited shelf life**, the **supply must constantly** be replenished by generous blood donors.
- **37%** of the population is eligible to donate blood, yet only **5% actually do**.
- Every donor goes through **a routine check-up prior to donation**
- Donated blood **tested** for HIV, hepatitis B and C and syphilis and Malaria . It gives you a cost free quick look into your health.
- **Improve your emotional well-being (KAR KE DEKHO ACHHA LGTA HAI...)**
- **Because I can.**
